Re: Requeza 13

Dear Matt,

I wanted to follow up with you regarding the Requeza 13 project. Everything went very well. From contracting, paperwork, precon, installation, pricing, and coordination with the field, and completion you guys did a great job! Also, no change orders my favorite item! Slope backfill above the wall was very important for us and that was installed quickly and per plan with no issues. You guys do an awesome job from start to finish. Office support and response is also excellent which I really appreciate. Feel free to have any of your possible future clients call me I would be glad to provide a recommendation about your company.

Sincerely,

Mike Lake
