Dear Mr. Stevenson:

I am writing this letter to extend my appreciation of the exceptional work that your company provided to the Torrey View Estates II project, building the Keystone Retaining Walls. Your personnel completed this project in a timely and efficient manor. The professionalism and expertise that your Foreman Greg Grippo and Dan Clanton exhibited were second to none. They worked exceptionally well with other contractors in difficult and tight conditions to perform their work on time.

I look forward to working with Greg and Dan on other projects soon. Again thank you for the exceptional job that your company provided.

Sincerely,

Chris Sullivan

RE: TRACT 811, "CITY LIGHTS", ESCONDIDO, CA

Dear Ed,

Just wanted to let you know it was a pleasure working with your company on our City Lights project for the installation of Keystone Walls. Prior to this project, Michael Crews Development had never built Keystone Walls. Working with Matt Read as Foreman for your company gave us confidence in Geogrid. His professionalism and promptness in completing the job made us a believer in your product and your company. We look forward to future projects with Geogrid.

Thanks again for a job well done!

Sincerely,

Adam Pevney

SAN DIEGO, CALIFORNIA

October 7th, 2002

Ed McCaffrey, Project Manager
Geogrid Retaining Wall Systems, Inc.
1295 Distribution Way
Vista, California 92083

Mr. Ed McCaffrey:

As the Superintendent of the Scripps Pomerado Project: Versante in San Diego, I am writing to commend your Company regarding the Geogrid Wall that was constructed.

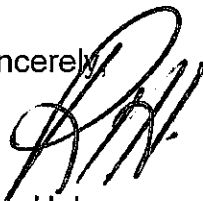

The job Superintendent for your company, Matt Read did an excellent job representing Geogrid.

His knowledge of the wall system was clearly evident, and synchronizing the back-cut, grid placement, compaction and grading resulted in this portion of our Project exhibiting a high degree of professionalism.

His awareness of not only what the needs of his company were, but also the needs of the whole Project; in terms of the trucked imports, 90% compaction requirements, moisture content, procurement and site storage of materials, expediency and quality were all aspects of the job that were done very well under his direction.

Ed Stoll Sr. in his management of the project picked a very capable well directed man for supervising this Project.

Sincerely,

Bob Huber, Job Superintendent @ VERSANTES –

cc Matt Read

GEOGRID

Attention: Mr. Mike Stevenson

Reference: Alexandria Technology Center
DPR Project No. 99013

Dear Mike:

We would like to take a minute to thank you for the efforts of your foreman, Juarez Lopez, and his crew on this project. We wish we could have more subcontractors like Juarez. He was conscientious about his work, careful to coordinate with DPR and other trades and, in general, went about his work in a businesslike manner. We appreciated his diligence in organizing his crew and efficiency in getting the work done. We had no failed compaction tests and no complaints from the soils engineer during the entire operation.

DPR has a very serious attitude towards safety that frequently challenges subcontractors to do things differently. We recognize that handrails are not the industry standard for this type of retaining wall installation and we appreciate the efforts made by both Juarez and John Carlson to try new solutions to the problem.

Although we did not meet our objectives for the schedule on this job, we do recognize that Juarez and John made a great effort to complete the project as quickly as possible. We could see everyday how the complicated layout around the building made the wall construction very time consuming.

Once again, congratulations to Juarez for a job well done. Let's do another.

SUBJECT: Saint Rose of Lima Eighth Annual Benefit Golf Tournament

Dear Mike Stevenson,

As you're aware, Saint Rose of Lima School held its Eighth Annual Benefit Golf Tournament at the Eastlake Country Club on May 4, 2003. We had over 200 individuals participating in the round of golf, dinner, putting contest, raffle and silent auction. Everyone had a wonderful time and the tournament was a huge success!

The entire Saint Rose of Lima School community would like to extend a very heartfelt thank you for your generosity in supporting this event. The monies raised from the tournament will go towards supplies, technology and various improvements at the school. All of the students will benefit greatly!

We recognize that the success of this tournament and the benefits that come from its success can not be realized without the support of people like you. Thank you for your continued support and may God bless you.

Sincerely,

Maria Tollefson, Principal

Re: Cornerstone Corporate Centre

Dear Mike:

Having just approved your monthly invoice for 100% completion on this project I thought I would take a moment to compliment Geogrid on your performance here at Cornerstone. As you know the particular sequencing of the project and the adjustments that needed to be made for the soil and backfill conditions helped make this project a challenge. In addition to properly executing the work, Greg Grippo and the rest of your crews cooperated well with the other trades on the site and the inspectors as well. I found all of your field staff to be refreshingly professional in their manner. It was a pleasure working with Geogrid on this project and I look forward to working with you again in the future.

Sincerely,
Ninteman Construction Co.

Re: Garfield Substation Keystone Retaining Wall, El Cajon, California

To Whom It May Concern:

I am taking this opportunity to bring your attention to the outstanding efforts of Matt Read and his work crew assembled for the installation of the Keystone Wall at Garfield Substation in El Cajon. His execution and work methods during the construction of this wall involved working closely with San Diego Gas and Electric, our design engineers, and our sub-consultants. The adherence to design, the diligence to provide an excellent finished product and his professionalism have aided in the successful completion of the keystone wall.

Matt Read maintained a safe working environment, and coordinated his crew to be as efficient as possible while at the same time providing an accurate finished product.

San Diego Gas and Electric has made a commitment to become a leading national energy services company by providing the lowest cost electric and gas rates in California. Through the efforts and dedication of the Geogrid staff in helping to protect the reliability of our services, this goal will become a reality.

Once again, thank you for your company's support, and please personally thank Matt Read and his work crew for us.

Dear Mr. Armentrout:

On behalf of the Sisters of the Company of Mary Our Lady, I wish to express our sincere gratitude for your fine work on our retaining wall at Saint Jeanne de Lestonnac School, Temecula Campus.

Quite frankly, we were somewhat apprehensive at the thought of a large block wall being placed directly behind our school. However we were pleasantly surprised when we viewed the wall upon completion. The style and color of the block blend in beautifully with the existing landscape. Luis advises me that the design was the result of your conscientious consultation and sensitivity, and for this, we are very appreciative.

Mr. Armentrout, we look forward to meeting you and others members of your company at the opening ceremony and dedication of our school.

Please extend our appreciation to the other representatives of Geogrid who helped on the project. You will be remembered in our prayers.

May God bless you and keep you safe.

Sincerely,

Dear Louis,

Trammell Crow Residential's construction operations field staff at the Sunbow Apartments in Chula Vista has instituted a "Contractor of the Month" program to recognize the outstanding contributions of our sub-contractors and their foreman in the field.

Because of the efforts of Robert Espinoza, Geogrid Retaining Wall Systems has been chosen to receive this recognition for the month of April 2000. Robert's overall knowledge and expertise of his trade, coupled with his personable and cooperative nature has been a benefit to the progress of this project. He has gained the respect of all personnel on site and has contributed greatly to the early success of this project.

As "Contractor of the Month", your company name will be placed on a plaque and hung in the job-site office.

Please let Robert know of our appreciation, and congratulations on a job well done.

Avery Coryell

Superintendent

Re: RDO Gateway Shopping Center
Oceanside, CA

Dear Mike:

Thank you for your outstanding efforts on behalf of our partnership for the above referenced job. The project has been under incredible time and budget constraints due to the horrendous "El Nino" winter. Not only did Geogrid make our budget, but the job was estimated to take 26 construction days to complete and was actually finished in 12 days. Your personnel assigned to the job, Louis Ramzi, Jon Carlson and Edwin Stoll were all extremely professional and cooperative. Please thank them for me as well.

The Keystone wall system you installed looks great and appears to be performing well. In short, I would not hesitate to recommend the product or your firm to any and all who have the need.

Thank you again.

Very Truly Yours,
Skepner Development Corporation

Re: Liberty Canyon Technology Center

Dear Mr. Grippo:

This letter is being sent to you in appreciation for an outstanding job of putting up retaining walls on the above-mentioned project. We would like to especially commend Rogilio Bernal, Juan Rivera, Carlos Herrera and Cicilo Lara for their effort and performance.

Sincerely,
EPI General Contractors

Dear Mike,

Thank you for the excellent work that everyone from Geogrid did in completing the wall systems and earth moving improvements on our property.

All of your personnel were hard working and professional. I want to specifically compliment Ed Stoll. Ed was very conscientious. He is a man who makes sure things are done right. Ed's ideas helped to enhance the improvements that were made. We were fortunate to have him here.

Thanks again for a job well done.

Sincerely,

Joe Drew

RE: SAN DIEGUITO PARK- RETAINING WALL SYSTEM

Gentlemen,

Please be advised that Retaining Walls Company has been unable to perform their contract with our firm. We have given them certified notices on 2 separate occasions to proceed with work with in 48 hours or we will petition the County of San Diego to remove them as a sub contractor from our project. We are now in the process of officially removing them as a subcontractor and this should be accomplished by February 12, 1997.

Please submit us a new up to date price quote on the Keystone Retaining Walls for San Dieguito Park as soon as possible.

Thanks,

Alan Clancy,
Clancy Constructors

Dear Forrest:

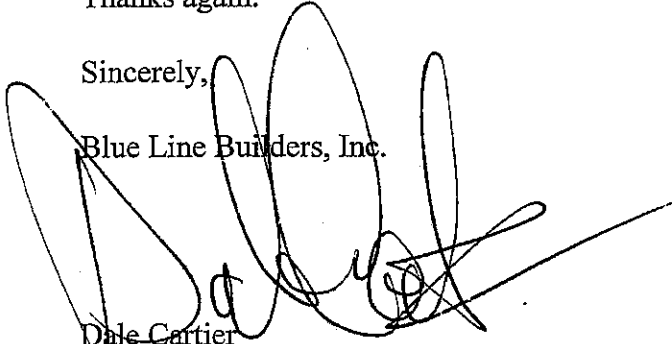

I am writing to thank you and your crew for a great job at the Antman residence (referenced above). The crew worked in a professional manner and the job was done ahead of schedule. Special thanks to Greg, your on-site foreman.

I will not hesitate calling you should I need your services in the future.

Thanks again.

Regarding: Rite Aid Drugstore Site, Laguna Hills, CA

Dear Mr. Ramzi:

This letter is a recommendation letter from our firm for the excellent work that you and your firm completed on the above referenced project. This was a tough County of Orange project that took persistence to get through the county approval processes and an extensive field inspection process once underway. Your firm followed through in a timely manner in all aspects and was consistently willing to go beyond what was expected to accomplish our goals and expectations.

Forrest Armentrout, your field personnel and yourself all had a positive attitude and took our interests as the client in mind, that was greatly appreciated.

We look forward to working with your firm again in the future, hopefully on an easier project and we would gladly recommend your firm to anyone else.

Thank you once again for all of your collective expertise and assistance.

Sincerely,

J. RAY CONSTRUCTION

Dear Mr. Stevenson:

On behalf of the individuals with developmental disabilities served by T.E.R.I., Inc., I would like to thank you for your donation of labor to install the retaining wall at our Marshall House group home. The landscaping project at this residence was a huge undertaking for us, and it never would have been possible without your support. Your generous donation ensures that our clients' home will remain a thing of beauty for years to come.

Working together with the members of the community, we can ensure the continuance of high quality programs and services, long in to the future. Thank you again for your generosity, and we look forward to a long and mutually beneficial relationship.

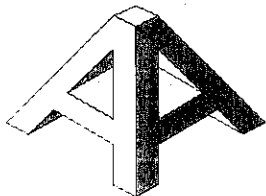

Sincerely,

Cheryl Kilmer

Mike Stevenson
GEOGRID RETAINING WALL SYSTEMS, INC.
3914 Murphy Canyon Road, Suite A-218
San Diego, CA 92123

**Subject: Letter of Commendation, Keystone Wall Installation
9240 Brier Road, La Mesa, CA**

Dear Mike:

By way of this letter, I would like to commend your crew for the excellent work performed at the subject site. The work was performed professionally and in a timely manner, in spite of the difficult site conditions.

I would particularly like to point out the ability of Brandon Stoll to take over the supervision of the work crew when Ed Stoll had to be pulled off to another job. Under Brandon's leadership, the wall installation progressed at the same aggressive pace, in spite of some unfortunate equipment problems. Brandon ran the job until its completion, and the wall looks great.

I will be recommending GEOGRID, as I did for the Hafer project, to all my clients with projects that have Keystone retaining walls specified by me.

Sincerely,

AGUIRRE & ASSOCIATES

Re: Ranchview Estates

Dear Mr. Stevensen:

I wanted to let you know the great job Paul McCormack did for us this past week at Ranchview Estates. He was timely on completing the project and kept it clean during the process. His cooperation with our field people really reflects the "team approach" we take with our subcontractors and Paul represents your company well.

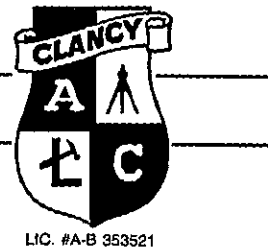

Sincerely,

LETTER OF COMMENDATION

We at Clancy Constructors would like to take this opportunity to congratulate GEOGRID Retaining Wall Systems, Inc. on the fine installation of the modular retaining wall system work performed on the San Dieguito Park . It was a pleasure working with the professional, knowledgeable and courteous personnel of GEOGRID. Mr. Jon Carlson was your foreman on the project and we would like to thank him for a well coordinated job completed in a very timely manner. We would like to take this opportunity to recommend your company for any and all projects.

Thanks once again for your cooperation and assistance in the completion of the San Dieguito Park Project.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Clancy". The signature is fluid and cursive, with a long, sweeping tail on the final letter.
