Mr. Louis Ramzi
GEOGRID
1295 Distribution Way
Vista, CA 92083

Dear Louis,

I would like to commend the crew that your company sent to my job at Seaview. The keystone wall went up very quickly and the foreman Robert and his men had a positive "can do" attitude that is not often found on jobsites these days.

I have no problem letting someone know when things don't go right and feel if there a circumstance when workmen do their job correctly but even give a little more than normal, it should also be brought to someone's attention. You should be proud of how these workmen represent your company.

Sincerely,
MSK DEVELOPMENT GROUP
