Re: Palm Plaza, 8th Street, National City

ATTN: Management

I want to inform you of how pleased I am with the construction/installation process of the Keystone wall at my project. The job was completed (1st phase) rapidly with a minimum of problems or delays. In particular, I want to praise your job foreman Javier Vasquez and his assistant Juan. They went out of their way to accommodate my needs and design changes as they came up without complaint. They made this portion of my construction project run smoothly.

I will let you know when my 2nd phase is ready so we may complete the entire wall.

Sincerely,

Richard Binkert
