RE: Geogrid Retaining Wall Systems

To Whom It May Concern

This letter is written to express our complete satisfaction with the services provided by Geogrid Retaining Wall Systems in the development of our project in Coto de Caza, California.

Their services were provided in a most professional manner, within predetermined time constraints, for a very reasonable fee and with a positive 'can do' attitude.

Darrell Havins, our sales representative, with his vast experience was able to offer alternative design enhancements and cost saving proposals. Dan, the Project Manager, always welcomed our field requests. Their field personnel worked in harmony with the project offering their personal assistance to us several times. Additionally, it was a pleasure to speak with their office staff who always placed a level of importance on our project.

With so many companies from which to choose, we are thankful that we selected Geogrid Retaining Wall Systems for our project. We intend to continue our relationship with them as other projects develop.

Please feel free to call me if you would like additional information regarding our experience with Geogrid Retaining Wall Systems.

Sincerely,

Bill O'Brallahan
